Dear Sir,

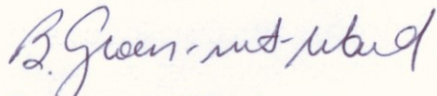

Re: Excellent Results with Software Link

Thank you for your excellent support and advice during the consultation, installation and training of the Syrinx Hire Software program for our Transportable Building Hire business.

Syrinx has solved numerous complex issues across the spectrum of stock control, invoicing, general account keeping with the transfer to MYOB and inventory tracking. We are extremely happy with how easy this system is to use. It has saved us time and streamlined our business processes. We have not come across anything that it has not already thought of.

We highly recommend Syrinx and Software Link to other hire businesses looking for similar results.

Yours faithfully,
Multitrade Building Hire
